

Metal Fabricators or "Fitters" make and repair metal parts used in the construction of buildings, bridges, towers, tanks, boilers, pressure vessels and more.

To learn more from an actual Fitter, watch the Job Talks interview below.

5 REASONS TO BE A **FITTER**

- 1 Use a variety of tools to shape metal**
- 2 Apply your creative mind**
- 3 Devise solutions for challenging problems**
- 4 Perform different welds every day**
- 5 Bring design drawings to life**

HOW TO GET STARTED
