

5 REASONS TO BE A HYDRAULIC/PNEUMATIC MECHANIC

- 1 Work both in repair shops and outdoors
- 2 Meet new people at different sites
- 3 Fix sandblasters, air drills, and more
- 4 Apply your problem-solving skills
- 5 Test and re-test toward perfection

Hydraulic / Pneumatic Mechanics repair, maintain, and adjust hydraulic units such as hoists, rams, jacks, lifting units, and pumps.

To learn more from an actual Hydraulic/Pneumatic Mechanic, watch the Job Talks interview below.
